65.446.01/02

**PROLOC 246 polyurethane adhesive/sealant**

One-component high-elasticity sealant for all common marine uses.  
 APPLICATION AREAS: permanently elastic vibration-resistant seals.  
 For all interior and exterior sealing applications. PROPERTIES:  
 -Excellent adhesion and sealing capacity -Fast cure -High elasticity  
 -Thixotropic: excellent performance in vertical surfaces -Resistant to salt water  
 -Paintable/sandable.

Code	Package	Color	PACKAGE
65.446.01	310-ml aluminium cartridge	■ black	24
65.446.02	310-ml aluminium cartridge	□ white	24
65.446.51	600-ml bag	■ black	20
65.446.52	600-ml bag	□ white	20

65.442.02

65.442.52

**PROLOC 242 MS polymer structural adhesive**

One-component MS polymer-based adhesive.  
 APPLICATION AREAS: suitable for whatever structural use on wood, metal, ceramic and plastic.  
 Sealing of windlasses, internal bulkheads, flooring, deck hardware.  
 PROPERTIES:  
 -Excellent adhesion strength -Good elasticity  
 -High resistance to dynamic stress -Thixotropic: excellent performance in vertical surfaces  
 -No shrinkage -Paintable/sandable -Primerless application possible.

Code	Package	Color	PACKAGE
65.442.02	290-ml plastic cartridge	□ white	24
65.442.52	600-ml bag	□ white	20

65.448.01

**PROLOC 248 polyurethane bedding adhesive**

One-component bedding adhesive for medium and large surgaces.  
 APPLICATION AREAS: bonding of non-slip, teak and treadmaster deck coverings.  
 PROPERTIES: -Permanently flexible -Slightly thixotropic  
 -Long open time -Sound-deadening and shock-absorbing  
 -Weather-resistant -Paintable/sandable.

Code	Package	Color	PACKAGE
65.448.01	310-ml aluminium cartridge	■ black	24
65.448.51	600-ml bag	■ black	20
